### FARMERS' DAY AT EXHIBITION SEES LARGER GATHERING

Judging of Livestock Progresses—Shorthorn and Jersey Championships Awarded—Interesting Program Arranged for Citizens' Day, on Thursday—Edmonton Derby Will Be Decided.

Thursday being Citizens' Day at the Exhibition and a Civic holiday in the afternoon a big crowd is expected at the fair grounds. Farmers' Day saw a better attendance this afternoon than on the opening day. The weather, while not very settled, is more favorable than on the first two or three days of last year's fair.

The judging in the ring this afternoon included highsteppers and hunters as well as various other harness and saddle classes. The first two races were for purses of \$1,000 each while the third race for horses trained in western Canada or the western states aroused a good deal of interest. The Edmonton Derby will be run on Thursday afternoon.

Good progress was made this morning in judging livestock classes. The Shorthorn female championship was awarded to Silver Queen, the yearling white heifer owned by J. A. Watt, Elora, Ont., while the red cow, Jealousy, which won first in the class for cows three-years-old and over, was placed reserve.

The remainder of the Angus classes were finished up this morning. The Herefords and Galloways will probably be taken next. The remainder of the Jersey classes were also finished, the championship awards going to Hull and Sons of Brampton, Ont., and to Harper and Sons, of Westlock, Alberta. The Holstein classes, which are perhaps the most interesting of the cattle section, are being judged. J. W. Richardson, the dairy cattle judge, states that the Holstein exhibit at this year's Exhibition show is probably the largest ever seen at any show in the Dominion.

More heavy and light horses were judged including the Clydesdale fillies and mares. None of the championships in the horse section have been awarded as yet.

The judging of the dogs and poultry has also commenced.

Evening Attractions.

Each evening the following attractions are being put on, commencing at 7.30, in front of the Grand Stand:

Folk dances under the direction of Mrs. May Hall James by Edmonton Public School Children.

Treat's Seals.  
Colonial Troupe of European Novelty Acrobats.  
Cyclonian Comedy Bicycleists.  
Display of Fireworks.

### ATTEMPTED GERMAN INVASION OF ENGLAND IS POSSIBLE, BUT WOULD BE MADNESS, HE SAYS

Naval Expert Holds Last Few Days Situation Goes to Show Futility of Such an Endeavor—Holds Such an Adventure Would Not Cause More Than Panic in District Directly Affected.

London, Aug. 12.—Archibald Hurd, a naval expert, writing for the Daily Telegraph, says:

Whatever change has occurred in the last few days in the naval and military situation it certainly does not weaken the argument as to the impossibility of an invasion of England.

Any invasion across the North Sea must be preceded alike by a battle in the North sea, and a German victory. Only a sailor can appreciate the obstacles in the way of such an adventure, carried out in the face of a large number of troops can be carried, but these vessels must keep well off shore during the process of disembarkation, owing to the depth of water they would draw.

"With every port on the English coast guarded by land and sea, it is difficult to perceive what object could be served by landing a few thousand German troops in a country which has over half a million men under arms.

"Such an adventure would not cause more than a temporary panic in one district directly affected and this speedily would give place to a feeling of confidence that in a very short time the invaders would be shot down or captured.

"Nevertheless, it is possible that such raids might be attempted, because many Germans believe that if one or more of them were successfully carried out, a feeling of panic would be thereby created in this country, which would have an appreciable effect both here and on the continent."

Few Stray Shots Fired.

"At Herbesthal we took to the road and advanced into Belgian territory. On the frontier authorities there was absolutely no resistance. Though I believe a few stray shots were fired at our cavalry scouts, who preceded the main body.

"After occupying the first Belgian town of Limburg, where locomotives and rolling stock were found, we continued our advance to Verviers, which was cleared of Belgian troops by our cavalry before our arrival. The inhabitants of Verviers watched our march into the town with terror, drawing into their homes and peering from behind closed shutters, evidently fearing that we would commit outrages.

"Nothing of the kind happened and we marched to the offices of the municipality and tore down the Belgian flag which was replaced by a German flag amid the cheer of our men. A flag amid the cheers of our men, and the district was read in French outside the town hall and posted in all parts of the place. Martial law was proclaimed and the residents were warned that any resistance to the military authorities would be punished by summary execution.

Orders Were Carried Out.  
"A German officer took over the administration of the town and began by requisitioning food and other supplies and various kinds of subsistence for German troops. His orders were carried out meekly, even zealously by the citizens of Verviers, who told some of our men quarters in the houses which had received instructions from Brussels to offer no opposition.

"Among the restrictions enforced was one compelling the townspeople to be within doors by sunset and not leave their houses before sunrise. They were forced to find quarters for our men and hand over the bread from the bakery—charge with which we marched.

into the enemy's country. The lack of enthusiasm spread through all the minds and retarded success. Yet with relentless discipline we were required to burn ourselves repeatedly at lines which seem unbearable. Then when only a fraction of our regiment survived, we moved to a different part of the battlefield while fresh troops were brought up to go through the same course of action. It was common talk among our men that hundreds of wounded were left for hours without any kind of adequate attention, for it was simply impossible to reach them without almost certain death.

"Their sufferings were heartrending, each a scene of horror and death. There were sights and sounds that even amid the din of battle shook our nerves and struck terror to our hearts. The bravest of men may well be full of fear on a modern battle field.

Needlessly Exposed to Fire.

"The young German who told this tale of war was well educated and refined, a member of a middle class family. His companions had similar things to relate. All agreed the courage of the German rank and file was superhuman, and they were needlessly exposed to a hostile fire when different tactics would have diminished the sacrifice of life.

The wholesale cremation of bodies of German soldiers killed in the fighting before Liege also was described by the German fugitives, who have crossed the frontier into Holland. During two or three successive nights after the fearful carnage around the forts of Liege, the Germans collected their dead and piled them in heaps of 20 or 25 to the Meuse, where they were buried. Funeral services were held and military salutes were fired over each saluted was then burned.

The officers explained to the men that this was necessary to prevent the bodies from becoming a menace to the living. Many other bodies were thrown into the Meuse to float seaward.

GERMAN'S SECOND TRY AT BUILDING BRIDGE PROVES SUCCESSFUL

Amsterdam, (via London) Aug. 12.—The second attempt of the German army to build a pontoon bridge at Herbesthal, over the Meuse, was successful, according to a despatch from Maastricht to the Telegraph today.

The bridge is intended for the passage of siege artillery, several pieces of which are being sent to Liege and others to Namur.

### GERMAN SOLDIER'S STORY BRINGS REALITY OF WAR HORRORS OF WAR

Troops at Attack of Liege Urged on By Reckless Bravery of Officers to Throw Away Their Lives—Rush into Certain Death Magnificent But Folly—Bodies of Brave Men Cremated in View of Comrades—Spirit of Attackers Entirely Broken.

(Capital Leased Wire.)

(By Count Rudolph Eginburg.) Maastricht, Aug. 12.—Fugitives from the German army operating against Belgium have given details of the advance into Belgium and the attack on Liege from the invaders point of view. They belonged to a detachment which was overpowered by Belgian cavalry, and fled into Holland to escape capture.

They were dismayed by the Dutch soon after they crossed the frontier, and I understand they intended to emigrate to America. They have had enough of campaigning and a country in which militarism is rampant. Here is the story of the march on Liege as related by the most intelligent one.

"We went by train to Herbesthal, the last German town, the outskirts of which were guarded by a strong force of our cavalry trucks, and the journey was like a triumphal progress, everywhere acclaimed by the people. Old men came out to bless us, and women and girls passed alongside the train, drawing into their homes and peering from behind closed shutters, evidently fearing that we would commit outrages.

"At Herbesthal we took to the road and advanced into Belgian territory. On the frontier authorities there was absolutely no resistance. Though I believe a few stray shots were fired at our cavalry scouts, who preceded the main body.

### TWO GREAT LAND FIGHTS REPORTED TO BE IMMINENT

Combined Belgian and French Troops and German Army of the Meuse Likely to Clash Near Liege—Kaiser's Forces May Also Meet Detachment Under General Joffre South of Spincourt—Both Sides Supported by Great Numbers.

London, Aug. 12.—Two great land battles seem to be imminent. One between the combined Belgian and French forces and the German army of the Meuse on the plains near Liege, and the other between the French and German army of the Meuse on the first line of the French defences extending roughly from Longwy, near the junction of the French, Belgian and Luxembourg frontiers and south to Spincourt. A third great battle is possible in Alsace, where the French army of invasion has been halted and forced to fall back from Mulhausen and is believed to be facing the German army of defence in the fortified position at Neu Breisch.

The German army of the Moselle, which has been pouring its troops through the grand duchy of Luxembourg and across the French border for days, appears to be spreading out in a fan-shaped battle line through the opening in the French line of fortified defence north of Verdun.

Armies Nearing Each Other.

No figures are available for either the German army of invasion or for the French army which is opposing it, but all reports indicate that both are in great numbers. That the two armies are nearing each other is indicated by the receipt of reports of skirmishes between advanced guards and cavalry detachments all along the line at Longwy at Longwy, a few miles to the southwest at Marville and Montmedy, still further west, and at Virton, half way between Longwy and Montmedy and a little to the north of them in the Belgian province of Luxembourg.

Moselle Army Strengthened.

There is a general belief that the Germans have strengthened this army of Moselle. It became evident that the Belgians were not going to permit the German army of the Meuse to sweep unopposed through Belgium and to support this army the Meuse on the north.

A report of a German advance from frontier towns of France, north of Verdun, would seem to indicate that the German strategists felt that this army of the Moselle has been delayed long enough by the misfortune in Belgium and that if the reported German plan of a quick and hard blow of France is to be carried, it must be by the army at Moselle at once without waiting for support from the north.

Germans Forced to Retreat.

Paris, Aug. 12.—(via London)—It is officially announced that the French troops around Spincourt, in the department of Meuse, forced the German cavalry to retreat, although the latter were supported by artillery.

The unloading of troops from trains continued in the region of Merolstein but the principal landings occurred earlier in the rear of Metz and Thionville.

French aviators are constantly flying over the zones where the German troops are disposed without paying the slightest attention to the bursting shells of the enemy. The official communication concludes with the statement that the work of fortifying Luxembourg and south Metz has been completed by the Germans.

Advancing Through Belgium.

Brussels, Aug. 12.—(via London)—The German army is being detached from its position before Liege and is advancing through the heart of Belgium. The main body of the German cavalry is engaged in a forward movement all along the front of the allied armies.

Retirement is More Marked.

Brussels, Aug. 12.—(via London 4:15 p.m.)—It was officially announced here today that the German retirement reported yesterday is becoming more marked. No other news from the front has been made public.

# THOUSANDS OF GOES THE EDMONTON MIDSUMMER EXHIBITION OPENED TODAY

Despite War Effects This Year's Fair Promises to Far Surpass Others in West and Completely Place in Shade Those of Former Years in Exhibits and Attractions—Manufactures, Agriculture and Other Industrial Feature Prove Intensely Interesting and Educational—Midway, Grandstand and Horse Races are Unusually Excellent.

Six thousand enthusiastic people thronged the exhibition grounds yesterday when the 1914 midsummer fair opened. Although the number of people was slightly smaller than that attending on the opening day of last year the management is more than satisfied. What may have been lacking in number was amply compensated for in the enthusiasm shown by the visitors. Everyone had words to praise for the exhibits and the spirit shown by the visiting people yesterday bids fair to make the present exhibition the greatest success that the Edmonton Exhibition association has ever achieved.

The large crowd seemed to center its attraction on the Manufacture building, where, throughout the day and evening, never ending groups wended their way through the aisles, pausing at every booth to admire the displays. Crowds of women thronged the stand in the center of the building to view the works of art and fancy work displayed there. Probably the luckiest exhibitor was Mrs. John H. Slack, of Fourteenth street, who was the winner of three first prizes.

The booths of Swift and Co., the Caledonia store, Jackson Bros., and many others received more than passing attention. Swift and Co. is displaying its products and with them have worked out a unique scheme to meet the desire of that portion of the public who are clamoring for war news. Various sizes of hats, buttons, and pulls of hard shape have been arranged as to represent the strength of the various armies and navies of the nations participating in the European war and are proving a great attraction.

The visitors arrived early yesterday and, previous to the judging of horses on the race track, visited every nook and cranny of the grounds. The description of a thriving business and no one was heard to complain of hard times.

The exhibition was officially opened in the afternoon by the Hon. Frank Oliver, who arrived in company with his honor Lieutenant-Governor Balfour. Immediately after the opening the judging of horses started and lasted until well in the afternoon. There was a great number of people interested in the judging and anxious for quick decisions, but the entries were so numerous and good that all the knowledge of horsemanship possessed by the judges was necessary to decide the winners.

Last evening the massed band rendered many tunes and was generously applauded by the 1,500 people who were in the grand stand. There was also military marching. This evening there will be a huge display of fireworks, which can be viewed from the grand stand. It is believed that this will attract a large crowd.

Today at the exhibition has been dedicated to the farmers and is known as "Farmer's Day." Special excursion trains on all railroads brought an early crowd of sightseers, and although it was impossible to judge the number of

REPORT BANK ENGLAND  
WOULD OPEN BRANCH AT  
OTTAWA IS DISCREDITED

London, Aug. 12.—The Bank of England is not to open a branch at Ottawa as has been reported.

It is understood that the \$10,000,000 of specie which made the voyage almost across the Atlantic, is back on board the Kron Prince Oskar, is to be sent to Ottawa. The Bank of England will make payments in London against this and other gold which will be deposited with the Canadian minister of finance.

The effect of the arrangement will be to provide means of remittance from North America to London without the necessity of shipping gold across the Atlantic.

The plan is said to be capable of extension to other places outside the region which is under control or might come under control of an enemy.

German and French Reservists Leave on the Same Steamer.

San Juan Del Sur, Aug. 12.—Fifty German and French reservists left here yesterday on a neutral vessel for Panama, where they will separate. The Nicaraguan government has prohibited the exportation of grain because of the war in Europe.

Shows Little Change.

In Belgium the position has little change. A great battle is expected somewhere on the line between Thionville and Liege between the Germans, the French and Belgians. It is thought probably it will occur within a few days.

The Germans have occupied Tonnay and are reported to have captured a railway station 25 miles from the coast. Outposts of no great importance, are reported at numerous frontier points of the many nations engaged in the war.

No great battle is likely for some time to come, as the respective armies are still engaged behind their covering actions, the work of concentration on the frontiers.

May Be Interrupted.

In the naval sphere no news except a report that the elusive German cruisers Goeben and Breslau have been sighted in the Atlantic. In accordance with international law, they will be dismantled and interned until peace is declared.

It would be a great step toward the safety of British-French shipping in the Atlantic.

## "BEAT IT" CRYPTIC MESSAGE RECEIVED BY C.P.R. STEAMER

German Cruiser by Wireless Asks Mount Royal Operator Pertinent Question.

INSTEAD OF REPLYING HE WARNS MAURETANIA

Atlantic Greyhound Sends back Warning That Locality Not Healthy.

Montreal, Aug. 12.—"Beat it!" That was the wireless message sent the C.P.R. steamer Mount Royal by the wireless operator of the Mauretania.

The Mount Royal arrived here from Antwerp safe and sound this morning with a strange tale of escape from a German cruiser at sea. She was approaching the Cape when Walter Condon, the young wireless operator on the Mount Royal, picked up the German cruiser Karlsruhe. The cruiser asked the position of the Mauretania, and the Mount Royal started to reply.

At that moment he says he heard Cape Race and asked for the position of the Mauretania as well. As that ship was strangely silent though known as a passenger liner, Condon declared that only a fog machine and sent a message of warning to the Mauretania operator, his was the terse reply "Beat it," which came through the air to him.

Not only did the Mauretania follow the advice, but the Calgarion and Royal Edward are also in the vicinity. The German cruiser was not sighted but Condon declares that only a fog machine came up hid her from the fleeing liners.

Visitors to Fair.

William Stapleton, district passenger agent for the Canadian Northern, with headquarters at Saskatoon, is in the city.

R. Dawson, district passenger agent for the Canadian Pacific railway at Calgary, was in Edmonton yesterday.

The Misses King, of Calgary, are in the city as visitors to the Edmonton industrial exhibition.

## CITY WILL PROVIDE CONTRACTORS WITH CASH FOR PAYROLLS

A special meeting of the board of city commissioners was held this morning at which a resolution was adopted authorizing the city treasurer to pay the contractors under the direction of the deputy finance commissioner, on account of work already done, sufficient money to cover actual payroll, as far as funds are available, up to the time of notice of suspension of work, which was served about two weeks ago. It is directed that the contractors furnish duly certified payrolls, and the payments to be made to contractors must not exceed the amounts submitted immediately prior to suspension of work.

This action by the board became imperative because of the demands of laborers in the employ of contractors for wages past due. In one instance it was reported that a rank of Italian laborers called twice on a local contractor yesterday and emphatic demands for money were made for the wages past due. Each case, however, will be thoroughly investigated.

At a meeting late this afternoon the heads of the various city departments will submit lists of employees whose services really may be dispensed with, and wholesale discharges are anticipated. Each discharge will be acted upon separately, by resolution, thus protecting the city from suits for wages.

Critical Situation Relieved.

Ottawa, Aug. 12.—An arrangement has been reached with the Canadian minister of finance by negotiations through Hon. Geo. E. Peley, with the bank of England, by which the present critical international exchange situation between America and Great Britain is to be relieved at once, and American and Canadian exports allowed to go forward speedily to Europe.

Prevent Foreigners Landing.

London, Aug. 12.—It was officially declared here today that the only steps taken by the British government to prevent the landing of foreigners in the British Isles were those provided for by the sections of the Aliens Restriction act, the object of which was to safeguard the country against aliens from countries with which Great Britain was at war.

## Latest Flashes of Great War

Huge Hospital Camp.

Rome, Aug. 12.—The Evening Journal La Sera has received a message from Bern stating that the federal council has proposed a guarantee of the whole of Switzerland into a colossal red cross hospital camp for the reception of the wounded, irrespective of nationality.

Guns Mounted on Churches.

Cologne, Aug. 12.—The spires of the Cologne cathedral and other churches are being transformed into aeroplane defence stations. Aeroplane guns are being mounted on the belltowers of the churches.

Withdrawn From Vera Cruz.

Washington, D.C., Aug. 12.—All the big ships of the Atlantic fleet will be withdrawn from Vera Cruz and brought here.

Nile Cancels Trip.

Honolulu, Aug. 12.—A cablegram received today from Yokohama says that the Pacific mail liner Nile, which has just arrived from Honolulu, has cancelled her trip to Hong Kong and back to the United States owing to a report that a German cruiser is in the straits near Kobe, Japan. The Nile is a chartered German steamer.

Heavy Artillery Firing.

Amsterdam (via London), Aug. 12.—A despatch from Maastricht to the Telegraph says terrific artillery firing was heard throughout the morning coming from the direction of Tongres to the north of Liege. The conclusion was felt at Maastricht.

Must Be In French.

New York, Aug. 12.—The telegraph companies announced today that messages for delivery in Turkey must be prepared in French and not in English. Instructions to this effect were received at the European terminus of Atlantic cables.

No News of Rainbow.

Yanover, Aug. 12.—No information is available as to the whereabouts of the Rainbow so far today. She is thought to be off Cape Light.

Effective Blockade Established.

Vienna (via London), Aug. 12.—An effective blockade of the Montenegrin coast has been established since yesterday by the Austro-Hungarian fleet, according to an official announcement here today.

## ADVISES FARMERS TO STOCK UP AND CUT LOTS OF HAY

W. P. Stevens, live stock commissioner for Alberta, calls attention to the fact that farmers living in north and central Alberta would do well to put up as much hay as possible this year. There is a serious shortage of hay in southern Alberta, owing to the dry weather, and this fact, combined with the war in Europe, will probably result in high prices being paid for winter cattle.

Stevens also states that farmers in northern and central Alberta can now stock up their farms at figures which prove profitable. There is also a good opportunity to go in with men in the south to winter cattle on shares. The live stock branch is endeavoring to put men in the south in touch with men in the north who will be willing to winter cattle.

Mr. Stevens, and Dr. P. Talbot, provincial veterinarian, returned this morning from a lecturing tour in the Neutral Hills and Sylvan Lake districts, where several meetings were held with audiences ranging from 25 to 60 people. In this section of Alberta wherever the soil is good and has been well cultivated the crops will be up to standard. Some fields of spring wheat were seen which should yield 50 bushels per acre and some oats which should go 50 bushels.

That a number of people are making use of the police court for the collection of money was the statement made at this morning by Crown Prosecutor W. J. Hefferman when the case of R. G. Armour came up for hearing.

Mr. Hefferman stated that many complaints were lodged with the police and that after the accused had been arrested and whatever money in question had been paid, the complainants dropped the cases. He suggested that when people laid charges with the police that they should be forced to prosecute. The case against Armour was dismissed.

The Mounted Police have received an inquiry from Winnipeg to locate a farmer by the name of Mikyuk who is supposed to have been farming in this district for the past 18 years. The inquiry comes from a nephew.

In answer to the call for 500 members of the R.N.W.M.P. to re-enlist there have been numerous inquiries from married men as to whether they would be accepted. It is stated that they will be accepted under conditions and will be given a separation allowance.

## SINCLAIR TRYING TO MAKE SOME POLITICAL CAPITAL SAYS MASSIE

Chong Bing and Mah Yung, who were arrested last Monday evening by Provincial Detective Marshall and an assistant, were arraigned in the police court this morning and after a lengthy hearing were held for a higher court on charges of assault and battery. During the hearing Magistrate Masie in addressing Solicitor Sinclair, counsel for the defence, said: "You are trying to make political capital out of this. I have told the prisoner not to answer certain of your questions."

Mr. Sinclair was endeavoring to have the provincial detective tell why he had been on the scene of the disturbance.

The alleged assault was made on the person of Fong Bin. The wound is a very small one on the right leg. Solicitor Sinclair apparently endeavored to prove that the wound was self-inflicted and several times during the proceedings was cautioned by Magistrate Masie that the wound was a slight one and that both had examined it.

Dr. Campbell and McCormack testified that the wound was a slight one and that both had examined it.

At a previous hearing Solicitor Sinclair assured that the action against the accused men was part of a long war and that Provincial Detective Masie for political purposes had arranged to be on the spot when the fight took place.

AUSTRIANS BOMBARD BELGRADE; DAMAGE INFLECTED HEAVY

Nish, Serbia, Aug. 12.—The Serbian and Montenegrin armies which effected a junction on the border of Herzegovina, are operating together.

The Serbian artillery is engaged in the bombardment of Gorahod, on the river Drina, twenty-nine miles southeast of Sarajevo, the Bosnia capital. Serbian troops already had captured the Bosnian town of Vardishta, at the junction of the rivers Drina and Lim.

Some unimportant outpost encounters are reported on the Serbian frontier at different points on the river Save and Danube.

The bombardment of Belgrade, the Serbian capital, by the Austrian artillery today and heavy material damage was inflicted on the city.

Reports reaching here from Sofia state that the Bulgarian government is preparing for eventualities, but it is not known what it has in view.

## TROOPS OF KAISER BADLY OUTCLASSED BY FRENCH CAVALRY

Says Rumor Regarding Loss of Forts at Liege is Entirely False.

NO VIOLATION OF GERMAN TERRITORY PRIOR TO WAR

Foreign Minister Maintains Frenchmen Dominate Heights Alsace.

London, Aug. 12.—The military position at Liege, Belgium, also along the Franco-German frontier, where the opposing outposts are in touch, and in Alsace, where severe engagements between a French invading force and the German defenders, recently were fought, is explained in a despatch from the French foreign minister received here this morning. He says:

"Rumor regarding the loss of the forts of Liege by the Belgian troops are entirely false. Only small groups of German soldiers entered the town itself under cover of the darkness. All the encircling forts, 12 in number, are intact."

"Small unimportant engagements have occurred along the whole line where the French and German armies are facing each other from Belfort, opposite the southernmost part of Alsace, to the heights of Alsace."

"A line between Thann (22 miles southeast of Kolmar) and Altkirch, the first position occupied by the French army after its invasion of Alsace is held by our army. This line runs slightly to the rear of Mulhouse."

"The French government indignantly denies that there was any violation of German territory by the French army before the declaration of war."

SACRIFICES UPON THE ALTARS  
OF THE AMBITIONS OF KINGS

In the language of the descriptive writers, Belgium is characterized as the battle ground of Europe. To make the description comprehensive, the borders of the battle ground would have to be extended to the Rhine, on the east, and to the North Sea at the delta of the Rhine on the north. Owing to its topographical characteristics, this country has constituted a natural frontier along which for more than two thousand years has been waged a conflict which was for centuries almost constant and which only during recent ages has become intermittent. And through the long story of these struggles as they are unfolded in history as the records of the Germanic races there is disclosed the persistent and never-ending struggle of the Teutons to break through the boundary lines by which they have been hemmed in since the dawn of history, only to be thrown back by forces stronger or more resourceful than their own upon their original holdings in Central Germany. Along this border line the fight has waged; here Romans and Franks, Saxons and Norse have come to meet their challenge with varying fortunes and temporary changes. From here at the very commencement of record was recruited the first force that ever crossed the Alps and reclaimed the Rome which the Caesars knew. As long ago as 113 B.C. a tremendous horde, under the leadership of some unknown whose name has been lost to record, commenced their migration from somewhere in this neighborhood, claiming that they were overcrowded in their own country and must have more territory, broke through the Tyrolean Alps and descended upon the Adriatic to administer the first genuine defeat which the Romans of that time ever experienced at the hands of the "barbarians." Crossing Italy at the southern foot of the Alps, they turned north again, ravaged Gaul, conquered Spain and finally met defeat at the hands of the Romans, the remnant fleeing to the original habitat to the east of the Rhine. Here Julius Caesar followed, and when by the conquest of Gaul he moved the Roman domain into the north, the Romans again came into conflict with the Germanic tribes and the Rhine became the boundary line, as it has been with slight variations for two thousand years. Caesar built his wooden bridge, famous in history, somewhere in the neighborhood of Cologne, where German soldiers are being massed today, and across this he launched a punitive expedition which, in spite of his great generalship, did not succeed in subduing the militant Germans. He built a line of forts, which were maintained for centuries, just as France and Germany are maintaining forts within a few miles of the same neighborhood today. Behind this line he established the first foundations of the agricultural and industrial civilization which is the France of this present century, and through the mingling of the Romans with the Gauls was given the Latin tribe which has distinguished the French from the Germans throughout the centuries. Here for four hundred and fifty years, with varying fortunes, throughout the rise of Rome to its imperial greatness, throughout the reign of the Caesars and the "good emperors," and to the decline and even beyond the decline and fall of Rome, the constant conflict continued. Civilization came and went, dynasties rose and fell, but Belgium and the Rhine remained the battle ground. From here in the first century Hermann, renowned in German folk song to the present day, recruited the forces with which in the depths of the German forests he annihilated the legions of Varus and left the aged Augustus crying: "Varus, Varus, give me back my legions." To the Rhine in the middle of the fifth century came Attila, "the scourge of God" at the head of his seven hundred thousand Huns, and here again was recruited the army which Aetius gathered from among the German, Frankish and Gothic tribes to fight the greatest battle of medieval times, wherein three hundred thousand men were killed and the Huns turned back from the Rhine. With the Rhine as a boundary line again Clovis, in the latter end of the fifth century and early in the sixth established the Frankish nation out of the ruins of the Roman occupation and continued the fight, now with the Catholic church as his ally against the pagan Germans, Saxons and Goths. Out of this alliance came the great campaign of Charles Martel, when from the west of the Rhine in the eighth century he gathered the force which met the Saracen host of 350,000 and defeated them so badly that they folded their tents in the night and silently stole away—all but the two hundred thousand or so who lay dead on the field of Poitiers—and Europe was again saved to the Germanic and Frankish races, to continue the fight for possession of the battle ground of Europe, Belgium and the Rhine. Here Charlemagne came on the scene in 771 to conquer, for the first time in behalf of the Franks the country to the east of the Rhine, to spread the Christian doctrine among them on pain of death, and to add new and terrible tragedies to the blood-stained record, not the most respectable of which was the massacre of 4500 Saxons hostages who had not been true to the faith and allegiance which he forced upon them. On the banks of the Rhine again, in the eleventh century, the nobles of Germany came together to elect an emperor, Conrad, and establish the German empire which, in spite of many controversies, feuds and strife in which it was divided and subdivided, stands today geographically almost the same as it did at that early date. Down through the centuries the struggle between Frank and German has been continued on this field until we know it in modern history as the scene of the great battles of Marlborough and Prince Eugene, and later yet of the Napoleonic wars when Blücher had his headquarters at the Liege so prominent in the dispatches of the day, and later at Namur, near where Napoleon met his defeat at Waterloo ninety-nine years ago. And yet again in the last great European war of '70-71, when the French met disaster at Sedan and the boundary line was once more hunched back from the Rhine, we find the same old battle ground of Europe strewn with the dead. Now in the greatest war of all, the war of the seven nations which has the world staggering today, we find the armies of Europe concentrating on the same familiar battle fields, and the same old question, the question of aggrandizement, of territorial

expansion, the supremacy of kings the fighting question of the hour.

Throughout the whole blood-stained story, if there is a moral at all, it is that the countless millions of lives that have been lost upon this blood-stained field have been sacrificed upon the altars of ambitions of the unending list of kings. Europe has been damned and devastated by the lust for power and the greed for dominion evidenced by its kings. And in this twentieth century, with the world claiming its highest civilization, Europe finds itself again in the "thrall of war" through the insensate arrogance of its only remaining autocratic king, the Emperor of Germany.

The hope of the war is that it will abolish its despotic kings.

The Adventures  
of Kathlyn

By Harold MacGrath.

## SYNOPSIS OF PREVIOUS CHAPTERS.

Kathlyn here, believing her father, Col. Hare, in peril, has summoned her, leaving her home California to go to him in Alaska, India. Unhappily, however, to the throne of that principality, has imprisoned the colonel, named by the king as his heir, because he fears the American may insist on his royal duties.

Upon her arrival in Alaska Kathlyn is informed by Unhappily that her father being dead, she is to be queen and marry the son of the king. Because of her refusal she is sentenced to undergo two ordeals with wild beasts.

John Bruce, an American and friend of Kathlyn's father, has brought Kathlyn to Alaska, saving her life. The champion of her trials becomes frightened and Kathlyn's father is released from Bruce and the king of the party.

After a ride filled with peril Kathlyn takes refuge in a ruined temple, but her father is also the abode of a lion and she is forced to flee from it. She finds a retreat in the jungle, only to fall into the hands of a band of slave traders, who bring her to Alaska to the public market. She is to be sold to Unhappily, finding her still unobtainable, throws her into the dungeon with her father.

Bruce and his friends effect the release of Kathlyn and her father, and the fugitives are given shelter in the palace of the king.

Supplied with camels and servants by the king, Kathlyn and her father set out to reach the coast, but is overpowered by a band of slave traders, who encounter results in the colony being taken to the king's palace. Kathlyn and Bruce escape from their captors and return to Alaska, where Kathlyn's father, her father, who normally king, is really a prince.

Kathlyn's resourcefulness and bravery again means her escape from the clutches of the slave traders, who are now on their way to the coast, but she is still away from Alaska, but returns to her father's side.

When Kathlyn's father is released, she comes to India. Unhappily, who is forced to enter the palace and in turn is crowned king of Alaska.

One attempt to get Unhappily out of the colony failed, and Kathlyn and her father, who are now on their way to the coast, but she is still away from Alaska, but returns to her father's side.

GERMANS PLACING  
NORTH SEA MINES  
INDISCRIMINATELYStated They Have Absolutely  
No Regard for Consequences  
to MerchantmenADMIRALTY AT LIBERTY  
ADOPT SIMILAR MEASURESThink Merchant Ships Should  
Not Enter Area of Such  
Exceptional Danger

Washington, D.C., Aug. 12.—Great Britain, pointing out the danger of neutral shipping by mines in the north sea by Germany has indicated a purpose to place mines in the same waters. Colville Barclay, charge of the British embassy today presented to Secretary Bryan the following memorandum:

"The Germans are planting contact mines indiscriminately about the North Sea. In the open sea without regard for consequences to merchantmen. Two days ago four large merchant ships were observed to pass within a mile of the mine field which sank the H.M.S. Amphion. The waters of the North Sea must therefore be rendered perilous to all ships, and to the commerce shipping of all nations.

In view of the methods adopted by Germany to harass neutral shipping, it is suggested that the British navy should hold themselves free at liberty to adopt similar measures in self defense which must inevitably increase the dangers to navigation in the North Sea before doing so they think it right to issue this warning, in order that merchant ships under British flag trading with North Sea ports should return back before entering the area of such exceptional danger."

C.P.R. REPORTS SHOW  
LARGE SURPLUS AND  
ASSETS FOR HALF YEAR

Montreal, Aug. 12.—At a meeting of the directors of the C.P.R. a dividend of 2 per cent. on preferred stock for a half year and 2½ per cent. on common stock for the year ended June 30 last, was declared.

Results for the fiscal year to June 30 last were:

Gross earnings from railway and steamship lines, \$10,814,824; working expenses, \$7,485,894; net earnings from railway and steamship lines, \$4,328,930; surplus, \$2,198,637.

After payment of all dividends declared for the year, the surplus from railway earnings for the year is \$9,489,242.

The company's land and other active and inactive assets have been included in the balance sheet on a conservative basis, and show an addition of \$1,557,582 to the surplus of \$12,046,824.

WHAT IS THE MEANING  
OF "MORATORIUM?"

The word "moratorium," appearing repeatedly now in discussing the international credit, has a simpler meaning than its sound suggests.

It might imply, if it carried no meaning to the average layman he need not be troubled by it. There are bankers and brokers, we venture to affirm, who have had their first lesson in its meaning of late. And this for a very simple reason. Only on extraordinary occasions does states resort to a "moratorium."

That is, to an emergency legislative act on executive decree suspending ordinary provisions of law relative to payment of indebtedness. When a government acts for the welfare of its subjects and in obedience to the soundest advice it can get, decides to delay or rather to postpone the date of payment of its obligations must be met according to customary rules of honor and equity. It is in conformity with a higher law, conservation of the need of the hour, if the structure of the credit is to be upheld.

Once the exigencies pass and the courts, national and international, are to review proceedings taken under emergency laws, they usually are deemed valid. Arbitrary they may be, but having a constructive purpose and a general application to all debtors and creditors caring to take advantage of them, they serve their end in the realm of "high finance," being their expression in the best sense of that term.

Mr. Gurofsky asserts that his object is to show the loyalty of the Jews and their appreciation of the liberty they enjoy under the British flag. He, himself is an ex-sergeant of the Tenth Royal Grenadiers.

GERMANS APPEAL  
FOR MORE REGARDLocal Publication Asks Cana-  
dians to be More Tolerant  
of Their Views

The Alberta Herald, a German paper published in Edmonton, makes an appeal to Canadians and their press to have a little more regard for native-born Germans, now British subjects, in this country.

It makes the positive assurance that no uprisings or demonstrations on the part of the Germans is contemplated in this country. It says:

"We, German citizens of Canada can quite naturally take no active part on behalf of Germany. As true citizens of this country we contemplate no uprisings or demonstrations. However, we think we can expect, in the name of Christianity and right, a little more consideration by the daily press for the feelings of the numerous foreign-born in Western Canada."

"The whole noisy patriotism which has been carried on here long before the part to be played by the Motherland was even known in London itself and the nation no good."

It goes on to take exception to a statement made that all Germans in Canada should take up arms for Britain.

"What would the maker of such a statement say to an Englishman resident in Germany who of his own free will took arms against the mother country? Does he perhaps think that patriotism is existent in none but Britishers?"

"Who, then, has brought the west to its present state of prosperity? Certainly not the English Janitor, restaurateur, or speculator, but rather the hairy fists of the oft-degraded foreigner. You should therefore rejoice. You should be content with this work and take no more notice of it. A little consideration for the love we bear our people, a little understanding of our isolated position in the present crisis, a little respect for our in-born patriotism, which no true man can tear from himself, we can surely request. It is all we desire. We do not resent the English-Canadians feelings, he can live to war, and in God's name."

FLOW UNDIMINISHED  
AT DINGMAN WELLProducing at the Rate of 240  
Barrels Per Day is Report  
From Field.

Calgary Aug. 12.—After 40 hours of continuous pumping the Dingman well was still producing oil at the rate of 240 barrels of gasoline per day. The gas pressure remains practically the same as it was when the pumping machinery was hooked up to the well. The capacity of the pump is from 10 to 11 barrels per hour, and members of the well expressed the opinion yesterday that with a pump of larger capacity the output of the well would be increased.

It begins to look as though the company would have to increase its tankage capacity immediately in order to keep up with the well's possible output, on another day of steady pumping will practically fill the three tanks that are on the ground.

The several hundred visitors who have come to Dingman camp could not help but be impressed with the tremendous activity of the various companies, either operating or making preparations to commence operations. Derricks are cutting into the sky line in every direction from Dingman well, and it begins to look as though the sanguine prediction of 50 derricks in the Dingman neighborhood of Herrer, was working towards realization.

Up Turner valley, too, derricks are appearing in bunches and drilling plants are being placed in position on many well sites.

H. A. Bishop, a well known operator of the California fields, has arrived in Calgary. On the good reports of those who have come before him, Mr. Bishop has shipped two strings of tools, which will arrive in a short time. In the meantime he proposes to make a careful survey of the field, and acquire some property on site to drill.

Mr. Bishop is the man who drilled the famous producer of the Petroleum Creek Oil company in the Midway fields. This well's yield for one month was sold to the Standard company and for the next three months it was sold to the Standard company for eight months its output was sold for \$1,000.

"I am of the opinion," he said, "from what geological data I have been able to obtain of your fields, that great depth is necessary in most instances and I am prepared for it. The equipment I am bringing is in capable of driving from the depth of 2,000 feet."

The reports that we are receiving in California are, as a rule, very encouraging, and if you get a few wells like the Dingman, war or no war, you will have all the capital you want for development."

The moving picture establishments of Pittsburgh have been asked to contribute to the warfare against the white plague.

THANHOUSER'S MILLION DOLLAR PRODUCTION

Story by HAROLD MACGRATH.

Monday and Tuesday, Aug. 17-18 only. Matinee 10c. Evening 15c.

Nine miles of film involving love, romance, forty-six reels of starting surprises, new thrills, stupendous staging—such is this gigantic, new serial production by the Thanhouse Film Corporation. The story itself by Harold Macgrath, the world's most famous mystery writer, is nearly 200 leading newspaper, including the Chicago Tribune, Boston Globe, Cincinnati Enquirer, New York Globe and Buffalo Courier.

\$10,000 For 100 Words. \$10,000 for an idea, which you must explain in 100 words or less. There will be no second prize.

\$10,000 will be paid by the Thanhouse Film Corporation to the man, woman or child who gives the best idea for the two concluding chapters of The Million Dollar Mystery; in other words, a solution of the mystery.

The Globe began the publication of The Million Dollar Mystery Sunday, June 24. As each chapter appears in the Globe a two-cent film coupon, pending with it may be seen in the various motion picture theaters. The story will run for 42 consecutive weeks in the Boston Globe, and you have until three weeks after that to send in solutions of the thrilling mystery to the Thanhouse Film Corporation either at Chicago or New York.

Solutions must be sent in by midnight Dec. 14 next. The solutions must be in the hands of the Thanhouse Film Corporation not later than that date. The judges are to be Harold Macgrath, Lloyd Longenecker, author of the scenario, and Miss Mae Tines of the Chicago Tribune. The decision of these judges will be absolute and final. Nothing of a literary nature will be considered in the decision nor given any preference in the selection of the \$10,000 award.

To aid you in arriving at a solution of the mystery you must remember these four points: What becomes of the millionaire? What becomes of the \$100,000? Whom does Florence marry? What becomes of the Princess Olga?

**CHARACTERS AND CAST IN THE STORY:**  
Stanley Hargrave, millionaire ..... Albert Norton.  
John Hargrave's butler ..... Sidney Bracy.  
Florence Gray, Hargrave's daughter ..... Florence Lathall.  
Braine, chief of the conspirators ..... J. H. Parrington.  
Princess Olga, an adventuress ..... Marguerite Shaw.  
Norton, a newspaper reporter ..... James Cruise.  
Susan, companion to Florence ..... Lila Chester.

## The Most Delicious Coffee You Ever Tasted

That's what you will say when you have tasted Gold Standard Chaffless Coffee. And it is so much better for you. ### FORMAL OPENING OF EMPIRE THEATRE WITH WINSOME 'KITTY MACKAY'

"Kitty MacKay," the greatest laughing play New York has seen in many months, will be the attraction at the Empire on Thursday for three days direct from a year's engagement at the Comedy theatre, New York. The play is under the direction of William H. H. H.

"Kitty" came into New York more than a year ago, and by her charm and cleverness took the metropolis by storm. Vice plays and sex dramas required in confusion before her sweetness and wit.

The morning after "Kitty" made her debut the whole town knew that she had arrived. For twelve months she has kept the Comedy filled with admirers. Thousands flocked to see the love story that had a laugh in every line.

The story of "Kitty" has to do with a little Scotch Cinderella who is taken to London town. There she meets the handsome officer, but cannot marry above her station. "Kitty" and the low-thinking, plain-spoken chum, "Mac," then there is the funny war with "Kitty" lived, but the story is too complicated to be described here. It must be seen to be enjoyed.

Comprising the splendid organization to be seen here, which is the same that appeared at the Comedy, are such well known artists as Marjorie Murray, who plays "Kitty," Bernard Thornton, Eleanor Daniels, Wallace Eskine, Marie Stuart, Ruth Poynt and others. The management personally guarantees this attraction, and it is evidence of the standard arranged for this house.

### HARRY CORNELL AND ETHEL CORLEY MAKE A BIG HIT AT PANTAGES

Harry Cornell and Ethel Corley in the sketch "Smithy and the Eel" at Pantages this week.

The offering at Pantages' theatre this week is that it is crowded to be and outstanding by its freshness from the other acts is the presentation of the two former lovers—Harry Cornell and Ethel Corley.

The couple were tendered a warm reception the minute the curtain rose on Monday afternoon and well they deserved it, for in their little corley playlet entitled "Smithy and the Eel," they displayed excellent ability. The story is along the lines of so many of the successful plays of the day, being based upon the second of the ever changing American metropolis, New York. Harry Cornell in the part of Smithy, and Ethel Corley in the part of the Eel, portrayed real living crooks. The lines of the story are short and snappy and the situation is a surprise and the audience is unwary. It is easily acted and is one of the best corley playlets seen at the Pantages in months.

The individual hit of the bill is being scored by Harry and Ethel. "Women as Is."

The turn is full of good lines, and Miss Lathall is a gem. The dancing is very cleverly done. The dancing is very cleverly done. The dancing is very cleverly done.

The real fun is being supplied by Kelly and Costin, the black face and Chinaman comedians. Their patter-joke is breezy and original, and the audience is very much amused.

The headline for the week is one of the most beautifully conceived and mounted acts on the boards. The scene effects are very pretentious and there are beautiful girls woven into the color scheme. The dancing is finished, and Miss Mattie Townsend sings some very pretty songs.

**LYCEUM PLAYERS AN AGREEABLE SURPRISE IN "THE EASIEST WAY"**

The Lyceum audience was agreeably surprised last night at the Lyceum players' presentation of what has long been known as one of the "classics" of the stage, "The Easiest Way."

This splendid drama, dealing as it does, with a grave question of morality, was presented so capably and the author's lines were so intelligently read, that all who saw it were of the opinion that it was one of the best plays ever presented at the Lyceum.

The play is a comedy, and the Lyceum players, who are all of the highest caliber, have made it a masterpiece of the stage.

THANHOUSER'S MILLION DOLLAR PRODUCTION IS FINE GARLAND OFFERING

Thanhouse's million dollar production will be at the Garland theatre August 17 and 18 only. It has nine miles of film, and without doubt one of the most classic productions that have ever been underlined. The story in brief is as follows:

Stanley Hargrave, millionaire, after a long and arduous search for the king of brilliant thieves known as the Black Hundred, lives the life of a recluse for 18 years. Hargrave, one night enters a Broadway restaurant and there comes face to face with the gang's leader, Braine.

After the meeting, during which neither man apparently recognizes the other, Hargrave escapes from the den of the king of brilliant thieves known as the Black Hundred, lives the life of a recluse for 18 years.

## News of the Markets

## Chicago Wheat.

Chicago, Aug. 12.—Commodity prices yesterday on change gave evidence that the temporary embargo which the war has put on ocean shipments from the United States was not to be ignored. There was a nervous close in wheat at 2 1/2 to 2 3/4 under Monday night. Cuts gained to 100. Provisions in the main 85c down.

It was plain from the start yesterday that buying wheat in bulk on way news had come to a sudden halt. Holders with profits who heretofore were not step to consider the effect of any present outlet for the rapidly accumulating surplus in the United States were in a state of mind to unload, and the market was accordingly made aware that the trade had largely reversed.

British feeling was further augmented by knowledge that seaboard exporters had resorted considerable quantities of wheat to Chicago handlers and that there was no evidence of proximate assurance when interior terminals could obtain relief.

That little reaction took place from the day's bottom prices in what appeared due to reports that some Kansas shipments were being held in Kansas, presumably on export bidding. It was said that such wheat would be held in Kansas until the product be exported to England.

There was also said to have been an active selling demand in Minneapolis. At the time yesterday, wheat here was down 2 1/2 cents compared with Monday's close.

Oats had a surprising recovery near the close. It was said the movement from the farms were not nearly so slow as had been expected. Provisions fell on account of the break in the hog market, due to receipts greatly exceeding the estimates. Poultry and turkeys support prices fell the same amount.

Notwithstanding the soft values suffered, the total of transactions was unusually large.

## Chicago Cattle.

Chicago, Aug. 12.—Cattle receipts, 4,500; market steady. Cows 75c; heifers 80c to 90c; calves 90c to 100c. Sheep receipts, 21,000; market weak. Light 85c to 95c; mixed 85c to 90c; heavy 85c to 90c. Bulk of sales, 92c to 95c.

Sheep receipts, 22,000. Market steady. Native 41c; foreign 40c to 41c. Lambs native 67c to 69c.

## Winnipeg Cattle.

Winnipeg, Aug. 12.—There was a good demand for all classes of livestock at the Union Stock Yards on Monday. Extra choice steers are quoted up to 75c and real good stuff finds a ready market on Tuesday. The demand for the east for the dressed product is very keen and packers find a difficulty in supplying orders.

## Toronto Cattle.

Toronto, Aug. 12.—There was but a slight run of cattle yesterday, following the big market Monday. Cattle prices were steady to firm, all ranges. The choicest butcher cattle in particular being in active demand. Medium to good fat cattle were in demand, though trade was slower in this class.

The feature of the day's market was again the high mark reached by hog prices, which at 10 1/2c fed and watered, comes pretty near to being a record price for the Toronto market. The present sharp advance in hogs is apparently due to the fact that farmers must be holding back supplies.

Lambs were again a slow trade, but sheep are firm and are wanted. Good veal calves are very firm. Milch cows steady, with a very active demand. Stocker trade fairly active, with a good inquiry.

Quotations: Cattle, choice butcher, 85c to 90c; medium, 75c to 80c; common, 65c to 70c; choice cows, 75c to 80c; medium cows, 65c to 70c; butch cows, 55c to 60c; milk cows, 45c to 50c; springers, 45c to 50c; short horns, 110c to 120c; 70c to 75c.

Stockers, 60c to 50c; light, 67c to 70c; medium, 65c to 70c; heavy, 60c to 65c; canners and cutters, 25c to 40c; milk cows, 45c to 50c; springers, 45c to 50c; short horns, 110c to 120c; 70c to 75c.

Pork hogs, 40c to 45c; do, heavy, 30c to 40c; hogs, 25c to 40c; spring hogs, 30c to 35c; yearlings, 75c to 80c; calves, 60c to 100c.

## Montreal Produce.

Montreal, Aug. 12.—The trade in butter was rather quiet, but the total of the market is very firm. There is no change in cheese, for which the demand between houses was quiet. Eggs, fairly active.

Cheese, finest creamery, 15c to 15 1/2c; eastern 15 to 15 1/2c. Butter, choice creamery 27 1/2 to 28; second 27 to 27 1/2.

Eggs, fresh, 20; selected 20 to 22; No. 1 stocks 22 to 24; No. 2 stock, 20 to 21.

Pork heavy Canada short mess barrels, 35 to 45 prices 28 1/2; Canada short cut back barrels, 45 to 50, prices 28.

## New York Finance.

The banking community was thrown into a state of excitement because of reports that the bank of England had in contemplation the establishment of a branch in Canada. Such a move was viewed with concern, because it carried implications of an attempt to build up credit here, with resultant drains upon United States gold reserves.

While the report lacked confirmation, it was declared by financial authorities that any effort to increase upon this country's gold holdings pending a judgment of the foreign situation is likely to meet with complete failure.

Money continued to hold at 4 1/2 to 5 per cent, many loans being made at the higher figure. In explanation of this it was said that out of town banks had directed their local correspondents not to make loans under the maximum rate, because they themselves were paying approximately that figure for

### ESKIMOS WON SECOND GAME FROM BRONKS: SCORE WAS 6-1

Sutherland, Nephew, Worked Well, and Had Lots of "Stuff"—Circus Catches by Several Players—Home Run by Williams.

Not satisfied with trouncing the Bronks by an overwhelming score in the morning game, the Eskimos came back again Tuesday evening and landed then a 6 to 1 defeat, in a game with the local's new pitcher, Sutherland, on the mound, and to say that the new Eskimos made good, is putting it mildly. Sutherland in from the Baker City club in the Western Tri State league, and surely looked good last night. Whether or not he will continue to form, remains to be seen. He had six strikeouts, to his credit last night, and walked but three.

It was a nice contest all the way, with few hits being gathered by either side. For the first three stanzas Edmonton held the Bronks hitless. Then he allowed one in each of the fourth and fifth frames, two in the sixth, and three in the seventh that were good for one run and the only tally the visitors made during the evening. In the eighth and ninth they went out one, two, three.

It took the Eskimos three innings to get started, getting a hit in each of the first three frames, coming strong in the fourth with a pair of runs, one of these being forced by Boice, who grew wild in the fifth. Boice's error and a single by Lemieux were good for another tally in the sixth, and four hits, one of these a home run by Williams, counted two more runs in the seventh. In the eighth, singles by Porter and Lemieux, and a wild pitch, showed across another, making the Eskimos a total of six.

The locals got themselves out of a tight hole in the sixth, when Piper and Vivian hit safely, and nobody out. Casad hit a foul fly and Ruell made a fine running catch behind third, and that helped matters considerably. Lemieux hit a grounder to Porter and Vivian was out at second, for the third out.

Williams' home run smash over the right field fence was featured, and was what Bill had been driving at all day, and in the morning game, had hit two in that direction but both had

**RECORDS BROKEN KALAMAZOO, MICH.**  
Anna Bradford and Walter Cochato Pace Fast Miles on Opening Day.

Kalamazoo, Mich., Aug. 12.—With a world record equalled and the track record broken, a grand circuit meeting opened auspiciously yesterday at Recreation Park. In the first heat of the Horsemans and Spirit of the Times Futurity, for 3-year-old pacers, Anna Bradford paced a mile in 2:05.4, which equals the record for 3-year-old fillies, made by Miss DeForest, at Lexington, Ky., in 1911. In the final heat of the 204 pace, Walter Cochato made the distance in 2:02.4.

**The Horsemans and Spirit of the Times Futurity**, for 3-year-old pacers, three heats, purse \$2,000—Anna Bradford won, Squantance 2nd, John A. P. 3rd. Time—2:05.4.

**204 pace**, 3 in 5, \$1,000—Walter Cochato won, Burns Jr. 2nd, Delroy B.H. 3rd. Time—2:02.4.

**250 trot**, 3 in 5, Michigan Union Trotting, purse \$2,000—Margaret Dresden won, McChesney 2nd, Linda Warner 3rd. Time—2:06.1.

**208 trot**, 3 in 5, \$1,000—May Mack won, Omar 2nd, Neusens 3rd. Time—2:17.

**Grand Forks Pitcher Sold**. Grand Forks, Aug. 12.—Pitcher Denley, of Grand Forks Northern league club, was yesterday sold to St. Paul club of the American Association, reporting at the close of the Northern season, Sept. 7.

**Coast League**. Portland, 3; Sacramento 2. Oakland 1; San Francisco, 3. Los Angeles, 1; Venice, 6.

**NO BASEBALL TODAY.** Owing to the non-arrival of the Moose Jaw team, there will be no games at Diamond Park today, but likely there will be a double-header Thursday.

### BRONKS RECEIVE TERRIBLE BUMPS AT DIAMOND PARK

Eskimos Take Picnic Game in the Morning by 19 to 6 Score.

Had it not been for the generosity of the home club, the Tuesday morning game at Diamond Park between the Eskimos and the Bronks might still have been in progress, and as it was, some two hours and 10 minutes were spent by about 100 loyal fans, in watching the local's entertain the southerners at the merry summer pastime, resulting in a score of 19 to 6, and adding another to the long string of wins from the Calgary team.

The entire nine innings was a weird affair, and one of the most unexciting contests of the season, especially in view of the fact that the fans were anxious to see the game over and would their way to the exhibition rags. The score quite accurately indicates the play, or if anything, the Eskimos might have added a few more runs, had they cared to tighten up in the closing stanzas of the game.

Four runs in the third, and four in the fourth, two in the sixth, three in the seventh and four in the eighth, told the story of the Eskimos' ability at the bat. Sixteen hits in all, including two three-baggers, three two baggers and numerous singles. The Bronks put one run across in the second, fifth, seventh and ninth, and added to the pair in the ninth stanza, but up their lonely last dozen.

The visitors' error column was well filled and after the fourth and fifth innings the game became a farce, with the Bronks making errors of every description, fumbles, muffs and muffs. The locals were credited with four double plays and the visitors with one. Toward the end of the game, time dragged so slowly, the play to play simply would not get out, but continued slugging the ball, and the old game here and there appearance of a Sunday school basket picnic. Umpire Wheeler also had some trouble, the result of which was several fouls handed out to Calgary players, and third baseman Grant being banished from the field. A general shake-up in the position of the Bronks players proved of no avail in the matter of getting runs, and the hundred odd fans present were glad when all was over.

Medicine Hat, Aug. 12.—The Hat made it five out of six from Regina by taking yesterday's game, the last of the series, 7 to 2. Buckles, who pitched the last game Saturday and won it, came back Monday and again repeated yesterday, and made it three games straight, he has won from the Red Sox. In the three games he has pitched grand ball and has never had any trouble in downing the Sox. He finished just as strong yesterday, as when he started Saturday. McQuarrie, lately secured from the coast, opposed him, but he was hit hard, and Kennedy, another new one, relieved him, but the game was on ice. Manager Ste yesterday purchased Mone from Medicine Hat and released pitcher Killen.

### QUAKERS AND MILLERS DIVIDE YESTERDA Y'S DOUBLE HEADER

Moose Jaw Won First Game 12 to 1 and Hurley's Second 9 to 5—Beer Wins Another Game.

Moose Jaw Aug. 12.—Another even more. After this he settled down and pitched, but the score was too much for the locals to overcome. Scores:  
First game—134 110 118—12 19 5  
Saskatoon, 100 910 600—1 8 3  
Battiste—Harris and Wally; Northup and Walters.

Saskatoon, 331 500 620—5 10 1  
Battiste—Pett and Wally; Beer and Walters.

The first was a slugfest, with the quakers hammering 19 hits off "Big Biz" Northup, while the second was lost by Fletcher. In the first inning, when two lead boots let three Quakers score, in the second again things went badly for Feet and the Quakers added three.

### FAVORITES WON MOST RACES OPENING DAY AT EXHIBITION

Grattan Boy in Straight Heats and Oviedo in Straight Heats, Took Two Harness Events—Marcus Won Mile Running—Pari Mutuels Paid Small Profits.

There was little excitement at the opening day races Tuesday afternoon. A heavy shower falling half an hour before the first event, made the track somewhat sticky for the initial race, but after that the track was in perfect condition. The first race started exactly at three o'clock and was the 230 trot. It was won in straight heats by Grattan Boy, with Dean Swift second in each heat. Tortoise Shell was third and The Fact fourth in every heat. In none of these heats did the machines pay well, the average being \$7.25 on a \$5 straight ticket, and \$5.00 on a place card. The new building for the part mutuels and betting ring, is a most modern structure and a vast improvement over the former dirty shed. The \$1,000 purse in the first race went to Willie Thos of Calgary, owner of Grattan Boy.

The second race, the 209 trot, 214 pace, was won in straight heats by Oviedo, with Imbro second and Yelno third in every heat. The best time in this race was the first heat in 2:11. The machines paid \$6.50 on a \$5 straight ticket and \$4.50 for place.

The third race was 6 furlongs running, for purse of \$300, Gray's Favorite, which started with the most money, was good winner, running a nice race all the way, and the little black gelding finished strong. The best time in this race was the first heat in 2:11. The machines paid \$15.50 on a \$5 place, and \$5.20 for place. The winner paid 10 cents on a \$2 place ticket.

Dan Field won the five furlongs as predicted. Peter L. was second, and Irish Boy third. The machines paid 11. Irish Boy paid \$5.20 on a \$5 show, but little money was on the sleek looking gelding of Morn and Lady Lexington, two well known runners, were backed lightly, but failed to come.

The fifth race was perhaps the prettiest of the afternoon and was one mile running, for a \$400 purse. There were three starters whom the betters backed heavily. Scrimmage, Frank Fletcher and Marcus. The former, if anything was the favorite, but failed to do better than third. The winner was Marcus, that old time favorite of western tracks, and unbeatable at the long run.

Marcus was driven well and ran a beautiful race. Running in last place

London, Ont., Aug. 12.—The Detroit Tigers toyed with London Canadian league team in an exhibition game here yesterday, winning by the score of 13 to 8. Crawford smashed the ball over the right field fence for a home run.

**CROSS BEAT RIVERS.**  
Los Angeles, Aug. 12.—Leach Cross, of New York, was awarded the decision over Joe Rivers, of Los Angeles, last night at the end of 20 rounds of hard fighting. Cross had every round after the tenth.

### TY. COBB SIGNS FOR THREE YEARS

With Detroit Tigers at Present Salary of \$15,000 a Year.

Detroit, Mich., Aug. 12.—Tyus H. Cobb, prize center fielder in the Detroit American league team, today set at rest reports that he intended jumping to the Federal league by signing a contract to play three more years with the Tigers. The contract does not contain the maligned ten day clause. Neither does it carry an increase in his salary, which is said to be \$15,000 a year.

The contract under which Cobb is now playing contains this clause, but he will expire at the end of the present season.

When Cobb completes the three seasons, for which he has just signed, he will have played 13 years with Detroit.

# EDMONTON CAPITAL

## EDMONTON IN BRIEF

The annual picnic of the employees of the Canadian Northern railroad has been postponed indefinitely owing to the war situation.

A meeting of the Edmonton Horticultural society was held last evening in the Civic block and the winners of the garden competitions chosen. The fall list of judges and winners appears on another page.

"Nordpolen" lodge, order of the Sons of Norway, will hold their regular monthly meeting next Friday night at the Blue Moon tea room, Rice street. All members are requested to be present.

The Jesuit Fathers have invited their pupils and the members of the "A.C.J.C." to attend mass at the college next Saturday at 8 o'clock for the feast of the Assumption. Breakfast will be served.

The Gregory Cafe, located, has taken over the premises until recently occupied by the Lewis Cafe on the Olympic arcade. A special feature, it is announced, will be a business lunch.

It is announced that the I.O.G.T. will hold this week by the I.O.G.T. hotel owing to this being exhibition week. The regular meeting will be held on Thursday evening of next week in the Methodist Mission hall, on Peace avenue.

Prices prevailing on the south side markets yesterday were: Timothy, \$8 to \$10 per ton; upland hay, \$5 to \$8 per ton; rough hay, none on market; oats, 40 to 45 per bushel; potatoes, 20 to 25 per bushel; sugar, 20c per lb.; eggs, 20c per dozen.

Holding himself in readiness to respond to the call to arms, Leo Quatre, secretary-treasurer of the Great Northern Tunnery, has tendered his resignation. He will join the Provincial army. He has been a resident of Edmonton for about 15 years. Mrs. Quatre and the children will remain in this city.

A number of army reservists left Edmonton by the C.P.R. Tuesday night. The party included 20 Hollanders and 12 Italians. The Hollanders only received orders to leave at nine o'clock and they caught the 10:15 train. An extra car was attached to the train.

Col. J. A. Fenn, manager of the Athabasca Hotel, operating below Fort McKay, on the Athabasca, and in the Calgary district, is in the city on his way to the northern fields. He is accompanied by a party of interested stockholders. The company is now located near High River and also at Steve near Brooks.

About forty editors of Scandinavian papers published in the western states will visit the Edmonton exhibition as guests of the Exhibition association and the Edmonton Chamber of Commerce. The purpose of their visit is to look into the opportunities afforded by this district, and to make plans to more intelligently write on the subjects for their readers.

It being an unwritten law that business by the city will be suspended during exhibition week, there was no meeting of that august body last night. The mayor, in the chair at 8:30 o'clock and Aldermen Clarke, Reid, Smith and Kinney were ready to listen to the reading of the minutes, but as there was no quorum represented the meeting was adjourned.

Local scaler, manager of the Venice Hotel, Kinsmen avenue, is taking action in the supreme court against the city to recover damages to the amount of \$5,000 for wrongful arrest in connection with a complaint made recently, that he had struck a man on the face with a beer bottle. It was proven in court that Scaler was arrested with the assault mentioned, another man having admitted the deed. It was also shown that Scaler was arrested without a warrant by the city police.

Accompanied by a party of prospective settlers, Boston, Denver and Saskatoon officials of the natural resources department of the Canadian Pacific railroad, passed through Edmonton yesterday. D. K. Charlton, Boston representative, is one of the party, and he is accompanied by his wife and daughter. William Woods, of Denver, is also with them, and George Elliott, of the Saskatoon office, is piloting a party of six Englishmen looking for locations.

To aid the wives and children of French recruits called to the colors, a fund has been organized by "La France Republique," the French society in Edmonton. Already some 250 French recruits have been called to the colors, and others still to go. About half of those who are now on their way from Edmonton to the front are married men, and have left their families here. Many of them left at such short notice that they were unable to dispose of their belongings. In consequence their families are scantily provided for. P. M. Bontayou, president of the society, and J. MacSavaria, treasurer, are in charge of the fund, and subscriptions will be sent to Box 955 Edmonton west office.

D. C. MacMillan, manager of the Progress Photo company of Calgary and Meyer Cohen, of the Industrial Photo company of Edmonton, are in the city guests at the King Edward Hotel. Equipped with up-to-date movie pictures, they are procuring a large number of scenes showing the mobilization of troops in western Canada. From here they are going to Vancouver to obtain pictures of the new ships which Canada recently purchased from Chile. They and the Rainbow they expect to get in Vancouver harbor and have arranged for a special yacht in Vancouver. Various views of the three ships will

## COL. FARQUHAR SAYS WILL BE DELIGHTED TO HAVE THE PIPERS

Services of Edmonton Militia Are Accepted for Princess Patricia's Infantry.

INSTRUCTION PARADE ATTENDED BY 150 MEN

Both 19th Dragoons Service Corps and Princess Pat's Men Ready to Leave.

This morning at eleven o'clock 150 men of the Princess Patricia's Light Infantry paraded for instruction. The men are a fine bunch and will do credit to Edmonton. They are to be sent to the front in which they may be called upon to take part. The recruiting of the corps has proceeded very expeditiously and without a hitch. Last night over 100 men paraded on the streets, headed by the Edmonton Pipers band. The men are all ex-servicemen and walked like a regiment in regular training. Colonel Farquhar, the Duke of Connaught's military secretary, and colonel of the Princess Patricia's Light Infantry, is very pleased with the way in which the men have enlisted in Edmonton.

Delighted to Have Pipers. In a wire to Captain McKinley received today Colonel Farquhar, in accepting the services of the Edmonton pipers to lead the Princess Patricia's Light Infantry, says:

"Delighted to have the pipers; many thanks." Other instructions received from Colonel Farquhar state that there will be no need to issue blankets to the men. They are to be supplied with blankets supplied in the east. One hundred and fifty men are ready to leave for the front, as soon as transportation is received and it is expected to arrive any minute. Colonel Cruikshank, district officer commanding Calgary, has authority for the transportation and arrangements are being made by A. J. Shulman, travelling passenger agent of the C.P.R.

19th Dragoons Drilling. The service squadron being organized by Lieutenant-Colonel Hamilton is ready to depart as soon as the word is received from Ottawa. Lieutenant Hamilton confidently expects that the squadron will form part of the Canadian contingent to be sent to Europe. Today he said: "We are going and are ready, although it may be a few days yet before we leave. One hundred and sixty men are drilling, the others being out winding up their affairs. We have been rather liberal with money in view of the fact that the men are liable to be called upon to leave any minute. We have not yet received instructions about horses, we have to get our horses here that will take a few days longer."

The lieutenant is now practically up to war strength and orders to mobilize a special service corps are expected at any time.

INDUSTRIAL LUNCHEON TOMORROW WILL BE AN IMPORTANT GATHERING

The regular weekly luncheon of the Edmonton Industrial association tomorrow at noon at the Empire auditorium promises to be of more than usual interest and every member of the association is urged to be present. It will be known as an "old timers' reunion," and addresses will be delivered by the Hon. Frank Oliver and Rev. D. G. McQueen, both old timers. The musical program will be under the direction of Major Wattle and will include some rare songs.

Particular interest will attach to the luncheon from the fact that the boards of trade from about 30 of the cities and towns within a radius of 150 miles will be represented by delegates who will be guests of the association. The towns represented will include Athabasca, Ponoka, Stettin, Lloydminster, Tofield, Camrose, Hardisty, Morinville, Red Deer, Vermilion, Vegreville, Fort Saskatchewan and others.

MILITARY ORDERS

## HEALTHY FOOT GREAT ASSET TO WOMAN'S BEAUTY

(By Dr. C. Vermilyea, Orthopedist)

How often, as the eye travels over the lines of an otherwise beautiful woman, is it disappointed upon reaching the feet? Ugly misshapen feet mar the whole physical beauty of a woman. Yet there is no reason why every one should not be equipped with feet of perfect beauty and grace. The defect from her general attractiveness. Care of the feet should begin in childhood and one cannot be too particular in selecting a shoemaker who has a practical knowledge of foot anatomy. Shoes should be fitted and made to last long. When standing and walking the toes press forward with a dawning movement and if the shoe is short it will crowd the joints out of place.

Regular massage of the feet improves their circulation and long. When standing and walking the toes press forward with a dawning movement and if the shoe is short it will crowd the joints out of place.
